**PRODUCT WEIGHT: 7.0 LBS**

### CAUTION BEFORE INSTALLING

**Before installation** - Read and understand all instructions, warnings, cautions, and notes contained in this installation instruction guide. Consult your vehicle owner's manual for proper disconnection of electrical and lifting of vehicle if required for installation of this product.

This install may require some technical skills and knowledge of basic mechanical work. If you do not feel that you are capable of performing this install please take this product to a trained professional.

After reading this guide please contact us with any questions or concerns before installing product.

**Customer Service: (626) 369-2121**

**ATTICA4X4 is not responsible for any bodily injury or harm to you or your vehicle as a result of an improper install.**

Proper installation of this kit requires knowledge of the factory recommended procedures for removal and installation of original equipment components. We recommend that the factory shop manual and any special tools needed to service your vehicle be on hand during the installation. Installation of this kit without proper knowledge of the factory recommended procedures may affect the performance of these components and the safety of the vehicle.

- **Always wear eye protection when operating power tools.** •

Inspect all contents of this package to make sure product is not damaged and all installation hardware has been included. If parts are missing from kit, please be prepared to provide the following information:

• Name of purchase location	• Date above Bar Code
• Bar Code on side of box	• Date inside box cover

※ Please recheck fasteners after 250 miles and inspect frequently.

REQUIRED TOOLS	Socket	Ratchet
Drill		

**Parts Information**

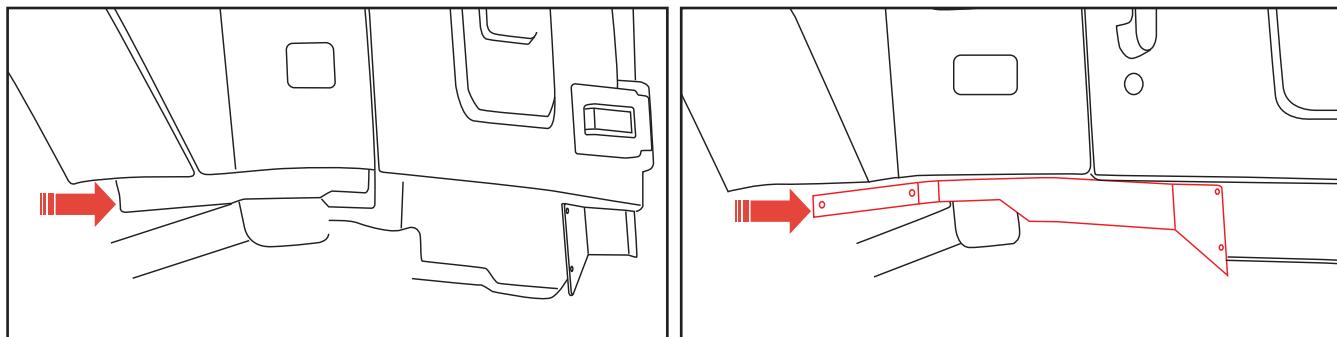

NO.	Parts Name	Size	Illustration	Qty
B07	Bolts	M6*20		12
N09	Nuts	M6		12
W13	Flat Washer	φ6*18		12

※ Note: One pack of spare parts is provided.

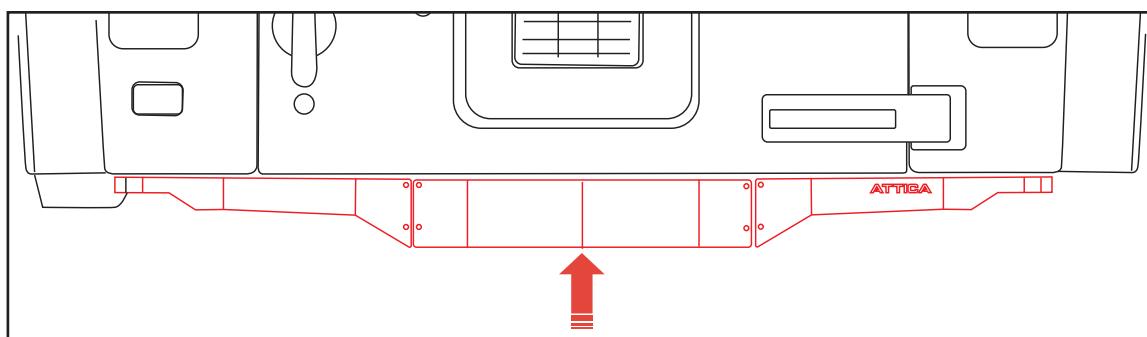

## INSTALLATION

### THE FOLLOWING ARE THE INSTALLATION STEPS.

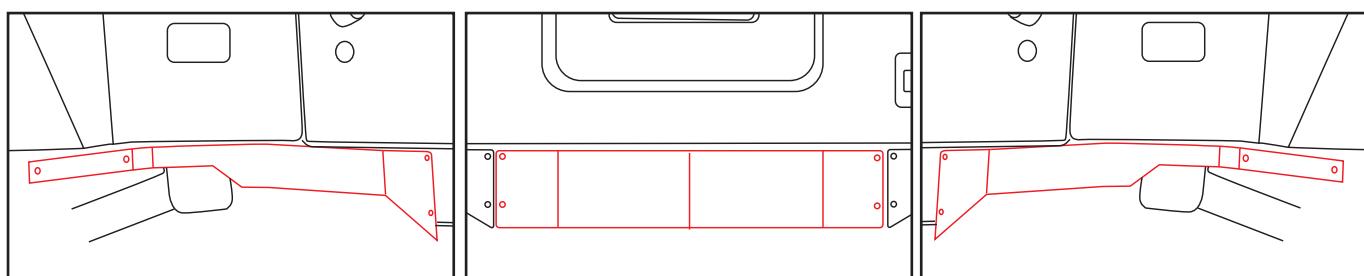

1. With the help from an assistant hold and position the side armor plates so that the front edge sits flush with the front side of the pinch seam and the edge of the armor plates aligns with the bottom edge of the pinch seam.

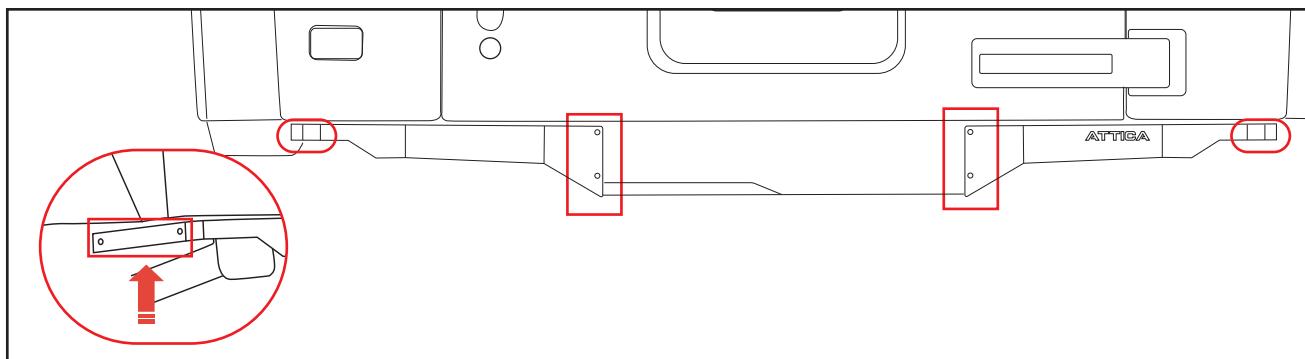

2. While holding the side panels in place position the supplied ATTICA's JK Wrangler Rear Center Fascia Cover Panel to ensure the outer panels and the center are aligned and spaced equally as shown in the image below.

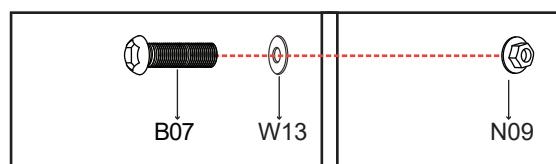

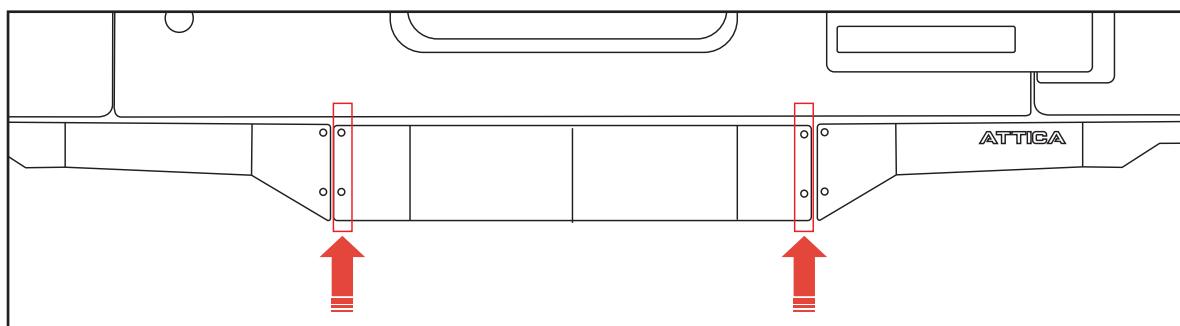

3. Mark the all hole locations in both the ATTICA's JK Wrangler Rear Driver, Passenger Side Fascia Cover Panels, and Rear Center Fascia Cover Panel carefully while holding all three panels in position to ensure the best fitment. This step is critical to ensure that the gap and panels are align when installed. Then remove all the panels and drill 8mm diameter holes at all the marked mounting locations.

4. The Driver Side Fascia Cover Panel and Passenger Side Fascia Cover are secured using M8×20 hex socket button head bolts, flat washers, and hex flange nuts (place the flat washers on the same side as the nuts). There are 4 mounting points per side(8 in total).

5. The Rear Center Fascia Cover Panel is secured using M8×20 hex socket button head bolts, flat washers, and hex flange nuts (place the flat washers on the same side as the nuts). There are 2 mounting points per side(4 in total).

## FINAL STEP

### EMBRACE THE ADVENTURE

Enjoy the look of your new vehicle! Be sure to review all mounting bolts and re-tighten if needed. Perform occasional checks to keep everything secure. If you have any questions, please email us at [Tech@attica4x4.com](mailto:Tech@attica4x4.com).

**Thank you for choosing our brand to be part of your journey!** As Attica 4x4's reputation grew, so did its community—a vibrant tapestry of off-road enthusiasts united by a shared love for exploration, craftsmanship, and the open road. From the sunlit trails of Southern California to the challenging terrains across the nation, and now to your next adventure with Attica 4x4!
