

PANGAEA[®]
NATURAL STONE INC.

FOR MASONS

TONY K.

MASONRY PROFESSIONAL

We have been working with Pangaea® Stone for many years now. We really love the character of each and every stone. With so many profiles and colors to choose from, my clients always find the perfect stone for their dream project! I love the GripSet® technology. High quality and high strength - you can't beat Pangaea® Natural Stone products!

SHIPRA S.

SHIPPING & LOGISTICS

I am constantly learning and I'm always supported in advancing my education. Pangaea® has been a great training ground and I'm always growing personally and professionally. My undergraduate degree has allowed me to utilize and advance my skills.

SANJAY N.

C.E.O.

My primary role has been to create a company structure of safety and security. This in turn has created a company culture with a high level of trust, motivation, and communication. I don't go to work to manage our people, they come to work to be inspired. I take care of our people, so they can take care of you.

SURESH C.

SENIOR SUPERVISOR

It never feels like I am working with co-workers. We all look after each other like best friends or close family members.

SARITA D. & SARITA S.

GROUND'S CUSTODIANS

I am always well respected and love coming to work, as we all treat each other very fairly.

I feel safe and secure at Pangaea® because we all work as a team. I am highly valued.

TRILOK Y.

HEAVY EQUIPMENT OPERATOR

There is no greater testimonial to a company's character than to have not only one son work in the same company, but have a second one that is eager to join. As a father, I could not be happier to know that my children's careers are secure.

PANGAEA®

FOR
DESIGNERS

CHANGING THE WORLD,
ONE STONE AT A TIME.

SHAWNA C.

DESIGNER

Pangaea® screams natural beauty. The range of colors and formats make it first and foremost the #1 product we use in our designs. Interior or exterior, stone from Pangaea® is something that will never go out of style. It is timeless.

ROB M. & KEVIN G.

C.O.O. & C.E.O. OF INSTONE

As a leader in the market, Instone partnered with Pangaea® because of the exceptional industry-leading product quality. This, coupled with the leadership in developing a product with the highest ethical standards...makes for an outstanding partnership!

BOSCOE

C.C.O.
(CHIEF CANINE OFFICER)

My life has been changed forever. I live in a home instead of on the streets and now every day is take your dog to work day.

MICK S. AND JEFF L.

CSI OPERATIONS MANAGER
& CSI PRESIDENT

What makes Pangaea® different is that it works! There are a few really simple ideas behind it that have been perfectly executed, resulting in a product that does exactly what it claims and exactly what its users require it to do.

SITARAM S.

C.O.O.

Our company culture has changed what was a job into a passion. Pangaea® has positively impacted my life and my way of thinking. I feel very blessed to have an opportunity to make a difference.

AAYUSHI C.

ACCOUNTS

I have never worked with a company with such principles and ethics. I am well respected and always feel safe and secure in our environment.

CARMEN N.

C.F.O.

Our Pangaea® family is continually striving to deliver products that we can be proud of and that our customers can enjoy for years to come.

FOR
YOU.

BEFORE WE GET TO THE STONE,
LET'S TALK ABOUT CHANGING THE WORLD.

W H A T
I F
T H E R E ' S

A BETTER WAY?

BUILDING A BETTER WAY™

CAN A STONE COMPANY CHANGE THE WORLD?

We believe it can. Our manufacturing facility in India adheres to ethical work practices, a clean and safe working environment and provides fair living wages. We lead by example so others may follow.

We minimize our environmental impact with revolutionary recycling methods. Our industry has a tendency to create excess waste and typically has a limited ability to recycle, so we decided there needed to be a better way.

We created systems to eliminate waste during the manufacturing and packaging process and created on site recycling in order to pave a new, greener path. From our product, to our packaging, when we were told there wasn't a way to be eco-friendly, we created a way. We are that committed. This translates to a better product that you can support in good conscience. Can a stone company change the world?

WE ALREADY HAVE .

BUILDING A BETTER PRODUCT

ARE WE BETTER THAN THE REST?

Why, yes. Yes, we are. And we're not just saying that. We use state-of-the-art technology and merge it with highly skilled stone artisans to create an extraordinary product. We backed this up by providing 22% more product than others in our industry. We cut, tool, trim, and fit all of our stone before we package it to make it Installation Ready™. Oh, and have you heard of GripSet® Technology? We invented it. It's a fancy way of saying we created a way to make the back of our stones easier to stick so you can ensure they stay in place. GripSet® is our proprietary technology. And if that's not enough, our stone veneers are 5½ times stronger on average than the compressive strength of commercial concrete. We've got the tests to prove it. Are we better than the rest? We've worked hard to be able to say yes, we are.

BUILDING A BETTER COMMUNITY

We create community partners in local villages by investing profits from Pangaea® to enhance access to education through rebuilding and expanding public schools. We create scholarship programs to empower girls and young women in order to break down gender and educational barriers. We also support local animal shelters and provide animals with food, medicine and unconditional love.

PANGAEA®

CHANGING THE WORLD,
ONE STONE AT A TIME.

WE ARE
PASSIONATE
ABOUT
RECYCLING AND
HUMANITARIAN
EFFORTS. BY
USING OUR

STONE
AT A
TIME.**

HOW WE STACK UP

3 ISO CERTIFICATIONS,
WHICH MEANS
QUALITY MANAGEMENT,
ENVIRONMENTAL MANAGEMENT,
&
OCCUPATIONAL HEALTH AND SAFETY
ARE AT THE FOREFRONT
OF OUR PROCESSES,
VERIFIED BY OUR
CUSTOMERS AND THIRD
PARTY INSPECTIONS.

PANGAEA®
STONE,
NATURALLY.

Have you ever heard of the Messner List? It's a popular list among mountaineers, naming the highest peak on each of the seven continents. These peaks are made into a list, which to some, becomes a challenge to test their limits. Elite climbers from around the world attempt to summit all seven in one year, a challenge made popular by adventurer Reinhold Messner. These mountaineers are from different continents and speak different languages, but all push themselves beyond their limits with the same goal in mind. And do you know what ties every one of these prestigious climbers together? The view from the top. Seven views, from seven different mountaintops. But if you are not an elite mountaineer or a world class climber trekking around the earth, don't worry. We can bring the view to you. Seven views to be exact. Pangaea® Natural Stone provides you with seven stone profiles to choose from so that you can have your very own mountain top experience.

REAL PEOPLE.
REAL IMPACT.
REAL STONE.

YOU DON'T EVEN
HAVE TO SAY IT.
WE KNOW YOU
LOVE US.

AND SINCE 88% OF
RELATIONSHIPS
START WITH A
MATCHMAKER, WE
HAVE **OVER 400**
DEALER LOCATIONS
TO CONNECT YOU.

WHAT DOES IT MEAN TO BE CANADIAN OWNED AND MANUFACTURED IN INDIA?

THIS IS OFTEN AN UNSPOKEN CURIOSITY. LET US TELL YOU. IT MEANS WE ARE PASSIONATE ABOUT BREAKING DOWN BARRIERS AND PAVING A NEW PATH. IT MEANS WE HAVE A CRITICAL OPPORTUNITY TO RUN AN ETHICAL COMPANY BY PROVIDING LIVING WAGES AND SAFE WORKING CONDITIONS. IT MEANS WE HAVE THE SAME EMPLOYEES AND FAMILIES TEAMING WITH US FOR OVER 15 YEARS BECAUSE WE BELIEVE IN LEADING THE CHARGE OF GOOD AND FAIR. IT ALSO MEANS WE CAN BE THE CHANGE WE WANT TO SEE AROUND THE WORLD. WE CAN BUILD SCHOOLS WHERE THERE ARE NONE. WE CAN TAKE IN STRAY ANIMALS AND PROVIDE SHELTER WHEN THAT IS OUTSIDE THE NORM. WE CAN HELP FAMILIES IMPACT FUTURE GENERATIONS SO THEY MAY JOIN US IN BEING THE CHANGE.

WE OPERATE OUTSIDE OUR BORDERS BECAUSE WE SAW AN OPPORTUNITY TO CHANGE THE WORLD.

WHAT
DO
WOOD
AND
WATER
HAVE
TO DO
WITH
STONE?

EVERY

THING.

WE OBTAIN OUR STONES FROM THE
VERY CORE OF NATURE,
**MAKING IT OUR DUTY TO
SUSTAIN THE BACKDROP
WE DRAW FROM.**

We devised systems to ensure not one drop of water, not one shaving from wood packaging and not one ounce of left-over stone rubble was going to waste. We take what we have and reuse it.

**AGAIN.
AND AGAIN.**

Our industry tends to be wasteful in its approach. We weren't okay with that. So we systematically broke down every step of the process and created innovative ways to save the environment and vastly minimize our impact while glorifying the gorgeous stones the earth gives us.

**YOU HEARD US.
EVERY. SINGLE. STEP.**

And we didn't just stop there. We made sure our machinery was electric and battery powered to reduce air pollution in a country that is so highly impacted by air quality because **ONE PERSON CAN MAKE A DIFFERENCE.** Ensuring our machinery is electric and battery powered also ensures our team members have a safer and cleaner work environment. This also reduces noise pollution because we care about **ALL OF THE IMPACTS WE HAVE.**

And once we've made a difference in a country that needed someone to lead the way, we weren't ready to stop there. We had to make sure our environmental impact continued to be minimized once our stone left our hands. So we spent years perfecting our wooden crate packaging to utilize sustainable wood and employ a drying process that ensured no pests can live within the timber and inadvertently travel around the globe. To top it off, all of our wood shavings are compressed into logs and used as a fuel source in rural areas.

RECYCLING AND SUSTAINABILITY.

WE CALL IT
BEING THOROUGH.

CAN WE
CONNECT
BUSINESS
WITH
IMPACTS IN
EDUCATION,
CULTURE,
& ANIMAL
WELFARE?

YES,

YES,

& YES.

WE
OPERATE
OUTSIDE OUR
BORDERS
BECAUSE
WE HAVE THE
OPPORTUNITY
TO GIVE OUR
SUPPORT TO
ONE CORNER
OF THE
WORLD.

We did not want to reinvent a new system or introduce something new that could not be sustained.

So we started with a very simple question:

HOW CAN WE MAKE A DIFFERENCE?

The answer has led us to expanding school infrastructures to increase enrollment, donating computers to connect children in classrooms to the global community, installing water purification systems where there was no access to clean drinking water, and providing direct community support to ensure that girls in rural villages have continuous access to education. If we provide support to help these kids succeed academically, we are investing in their future. It's a simple system of Q & A that works without overstepping.

TO PUT IT IN PERSPECTIVE FROM THE VERY BEGINNING,

WE ARE PROUD.

OVER FIFTEEN YEARS AGO, WE STARTED A LITTLE STONE COMPANY AND MADE THE CONSCIOUS DECISION TO KEEP OUR BASE IN OUR NATIVE COUNTRY OF CANADA AND WORK WITH OUR NEIGHBORS IN THE USA, WHILE ESTABLISHING THE HEART OF OUR COMPANY IN OUR ANCESTRAL COUNTRY OF INDIA. WE DID SO KNOWING THAT WE COULD MAKE A DIFFERENCE THERE. WE COULD CELEBRATE A DISTINGUISHED CULTURE WHILE PROVIDING SAFE WORKING CONDITIONS, FAIR WAGES, AND EQUALITY. WE HAVE BEEN DOING THAT FOR OVER 15 YEARS AND DO YOU KNOW WHAT'S HAPPENED? WE HAVE MULTIPLE GENERATIONS OF FAMILIES WORKING TOGETHER WITH US. WE WATCH OUR NEW EMPLOYEES FLOURISH IN THEIR JOBS WHICH HAS ALLOWED THEM TO BUY THEIR FIRST HOMES. WE WATCH POSITIVE CO-WORKER RELATIONSHIPS BEING FORMED, NO MATTER THE AGE OR GENDER, WE SEE AN UNPARALLELED WORK ETHIC FROM THE FLOOR SWEEPERS WE DEPEND ON TO KEEP OUR WORKING AREAS CLEAN, ALL THE WAY TO OUR MANAGEMENT TEAM WHO PERFECT OUR PROCESSES.

35 MILL ION

THERE ARE 35
MILLION STRAY
DOGS LIVING IN
INDIA RIGHT NOW.
EVEN SOME OF
THE LARGEST
CITIES LACK THE
INFRASTRUCTURE
TO SPAY &
NEUTER TO
PREVENT THIS
NUMBER FROM
GROWING. AS
USUAL, WE ASKED
OURSELVES, CAN A
SERIES OF SMALL
ACTS MAKE A
DIFFERENCE?

We may not be able to rescue thirty-five million dogs, but we can start with as many as we can. We nurse them back to health and take home those who are most in need and every day becomes "take your dog to work day". We work with a local animal shelter in Jaipur called "Help in Suffering" by offering our resources and our time. We also volunteer and donate what we can to connect our love for dogs coast to coast by working with our local animal shelters and supporting and adopting rescues. Our hope is that while we may not be able to rescue every one of them, our work will start a domino effect for our beloved four legged friends.

WE
BELIEVE
IN A
RIPPLE
EFFECT.

DETAILED

THAN A LATE NIGHT

GOOGLE OF YOUR EX

Pangaea® Natural Stone offers a line of architectural accessories that perfectly complement our wide range of stone veneer products as well as other stone cladding.

WHETHER YOU ARE LOOKING
TO SUBTLY BLEND IN OR BOLDLY
STAND OUT IT'S THE LITTLE THINGS
THAT MAKE ALL THE DIFFERENCE.

Pangaea® offers an array of finishing products that are more detailed than a packet of instructions for self-assembly furniture (and we're easier to use too). From watertable sills to trimstones, our architectural elements add that final touch that gives that "I can't quite put my finger on what it is about this, but man that looks incredible" feeling (by the way, it's the details. Details add "je ne sais quoi" to your design without taking over). It's that final coat of lipgloss, that perfectly fluffed pillow, that straightened picture frame, that foam on top of a latte.

IT'S THE FINAL TOUCH.

Cambrian Slabs.
Like icing on the cake.

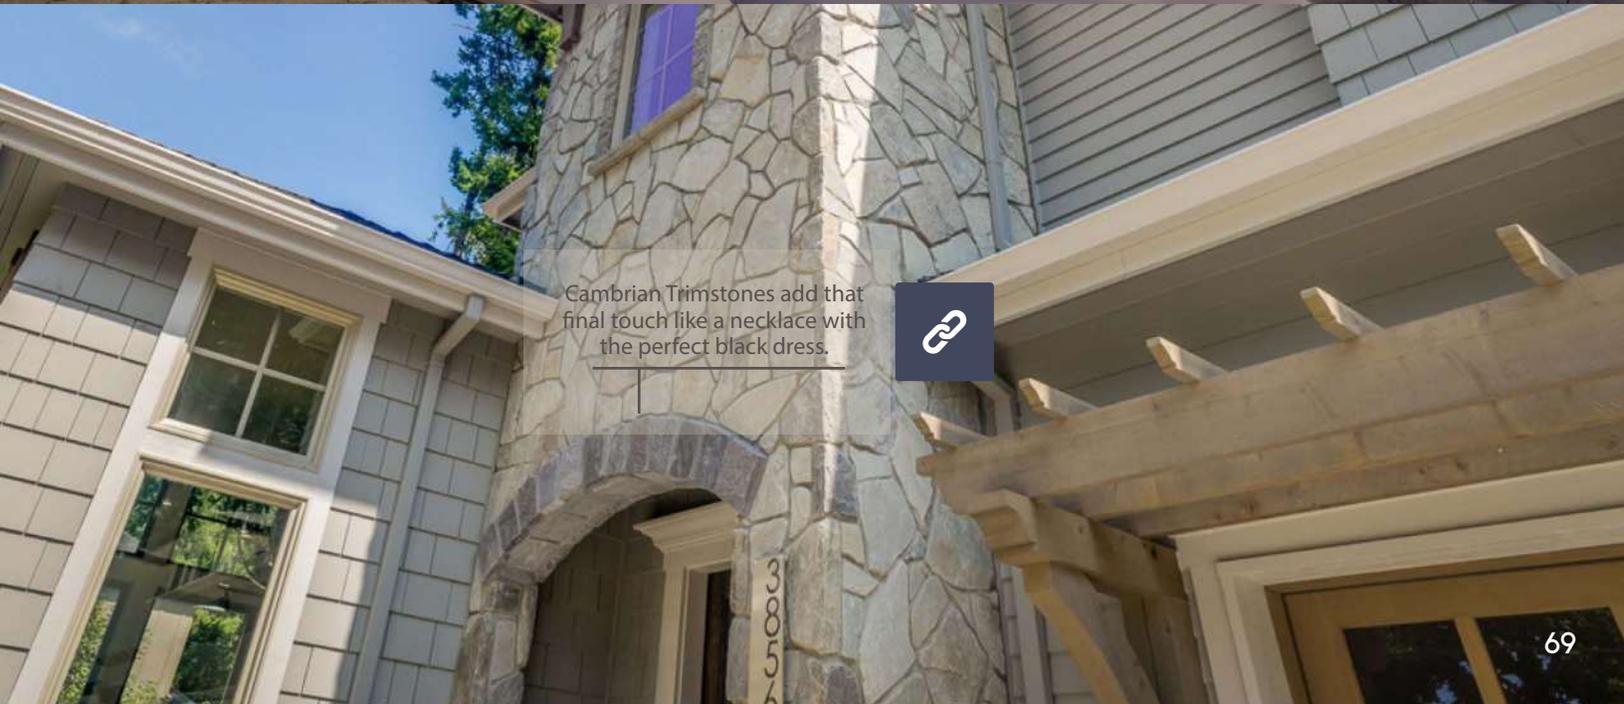

Cambrian Watertable Sills. An insurance policy against all weather conditions.

You rarely notice a wall cap, but you set your drink here all the time.

Cambrian Trimstones add that final touch like a necklace with the perfect black dress.

DOTTING

THE i'S

AND CROSSING

THE t'S

PANGAEA® STANDS FOR
RELIABILITY, CONSISTENCY
& PREDICTABILITY

Why are these three characteristics so important?

Why would we ask our customers to work in the modern world with antiquated ideas? In our industry, the lack of innovation is often accepted as the status quo. In a world that is filled with advancing technologies and clever ideas, our industry has often chosen to remain primitive in its approach.

The construction industry is full of new ideas and product advancements. From reimagining quarrying technologies to breathable building envelopes, to route trucks that offer just-in-time delivery systems. So why has the Natural Stone Thin Veneer industry failed to innovate since its inception? Our belief is; manufacturers are stuck inside the bottle. If you're stuck inside the bottle, you cannot read the label on the outside.

Over the past 15 years we have consciously re-imagined, re-evaluated and re-tooled our approach on how to continually create value. We have delivered real world solutions to real world problems. We are insanely focused on delivering the highest value from the products we manufacture to the communities we serve. This purpose is what continually fuels our passion.
