CAUTION BEFORE INSTALLING

Before installation - Read and understand all instructions, warnings, cautions, and notes contained in this installation instruction guide. Consult your vehicle owner's manual for proper disconnection of electrical and lifting of vehicle if required for installation of this product.

This install may require some technical skills and knowledge of basic mechanical work. If you do not feel that you are capable of performing this install please take this product to a trained professional.

After reading this guide please contact us with any questions or concerns before installing product.

Customer Service: (626) 369-2121

ATTICA4X4 is not responsible for any bodily injury or harm to you or your vehicle as a result of an improper install.

Proper installation of this kit requires knowledge of the factory recommended procedures for removal and installation of original equipment components. We recommend that the factory shop manual and any special tools needed to service your vehicle be on hand during the installation. Installation of this kit without proper knowledge of the factory recommended procedures may affect the performance of these components and the safety of the vehicle.

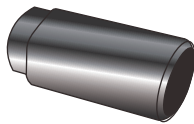

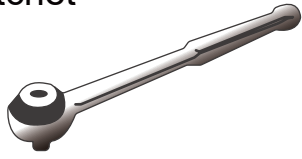

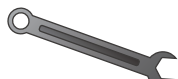

- **Always wear eye protection when operating power tools.** •

Inspect all contents of this package to make sure product is not damaged and all installation hardware has been included. If parts are missing from kit, please be prepared to provide the following information:

- Name of purchase location
- Bar Code on side of box
- Date above Bar Code
- Date inside box cover

※NOTICE: Before installation, please remove the factory rear bumper and complete the following steps.

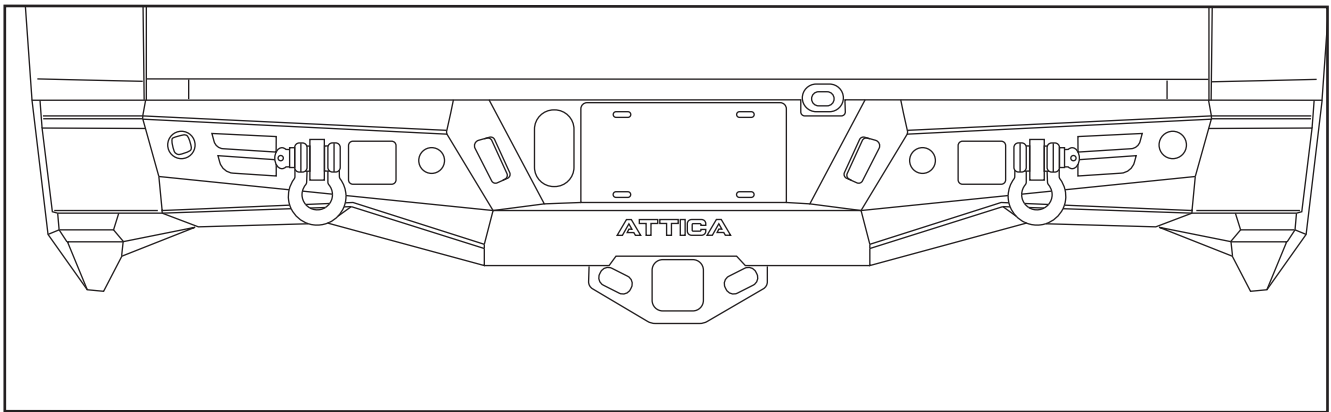

- 1.Remove the license plate.
- 2.Unplug the sensors and move the wiring harness away from the bumper.
- 3.Remove the sensors from the plastic sleeves and remove the sleeves from the bumper.
- 4.Unplug the factory license plate lights.
- 5.Unplug the wiring harness from the back of the trailer connector and remove the outer plug from the bumper.
- 6.Move all wiring harnesses away from the bumper.

※ The following are the installation steps.

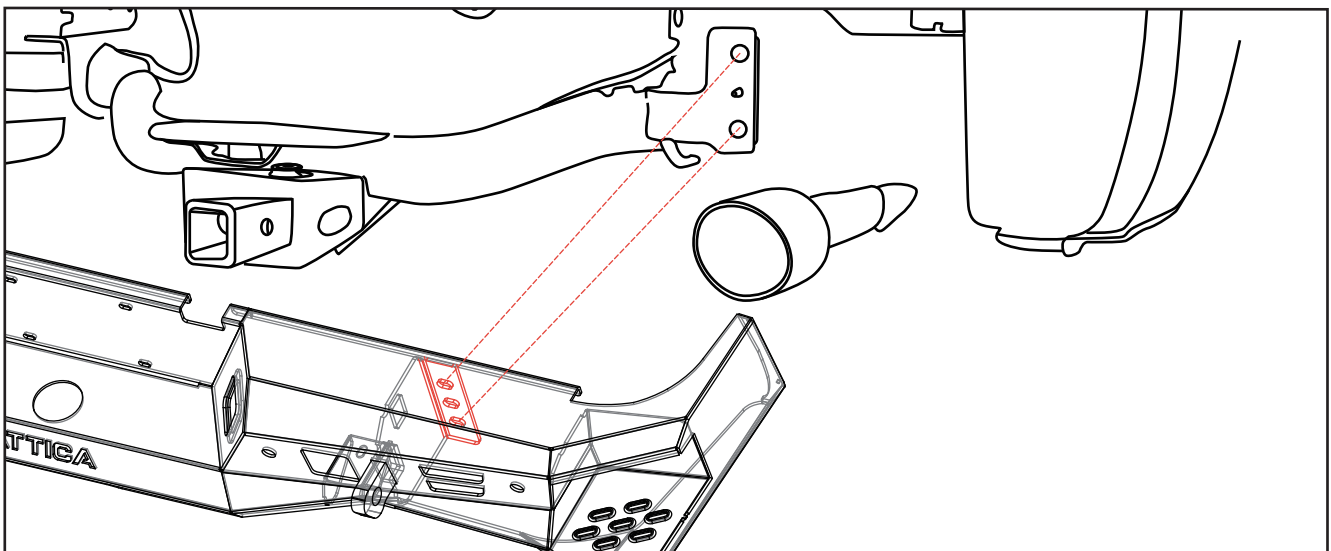

INSTALLTION I

Bumper installation.

- 1.With assistance, position the ATTICA Bumper Assembly up and over the bumper brackets on the ends of the frame and factory tow hitch.

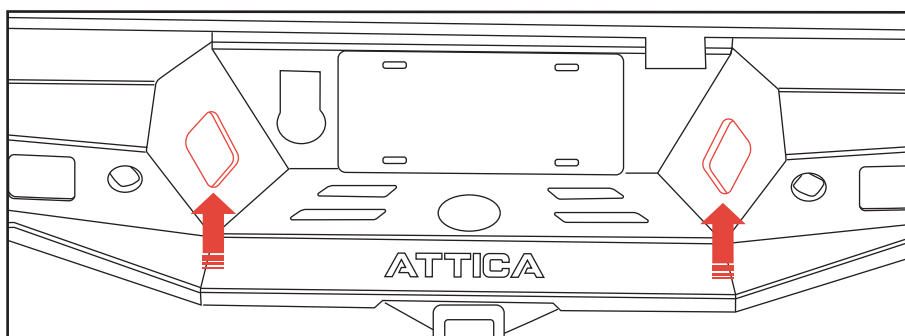

- 2.As shown in the diagram, secure the ATTICA rear bumper to the bumper brackets using M10x35 hex bolts (NO.B35), M10-8 hex nuts (NO.N15), ϕ 10x25 flat washers (NO.W23) and ϕ 10 spring washers (NO.W22).There are 2 mounting points per side (4 in total).

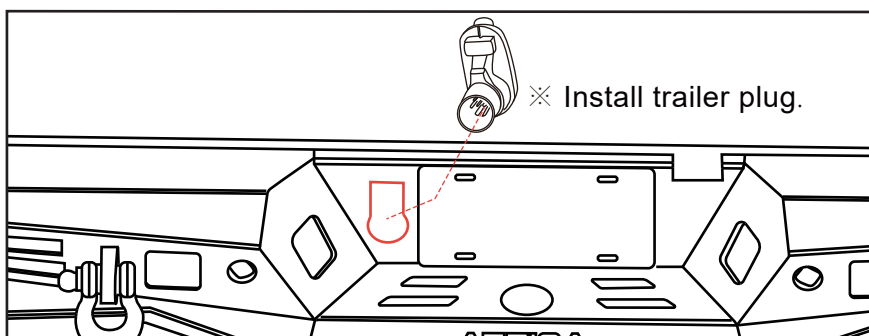

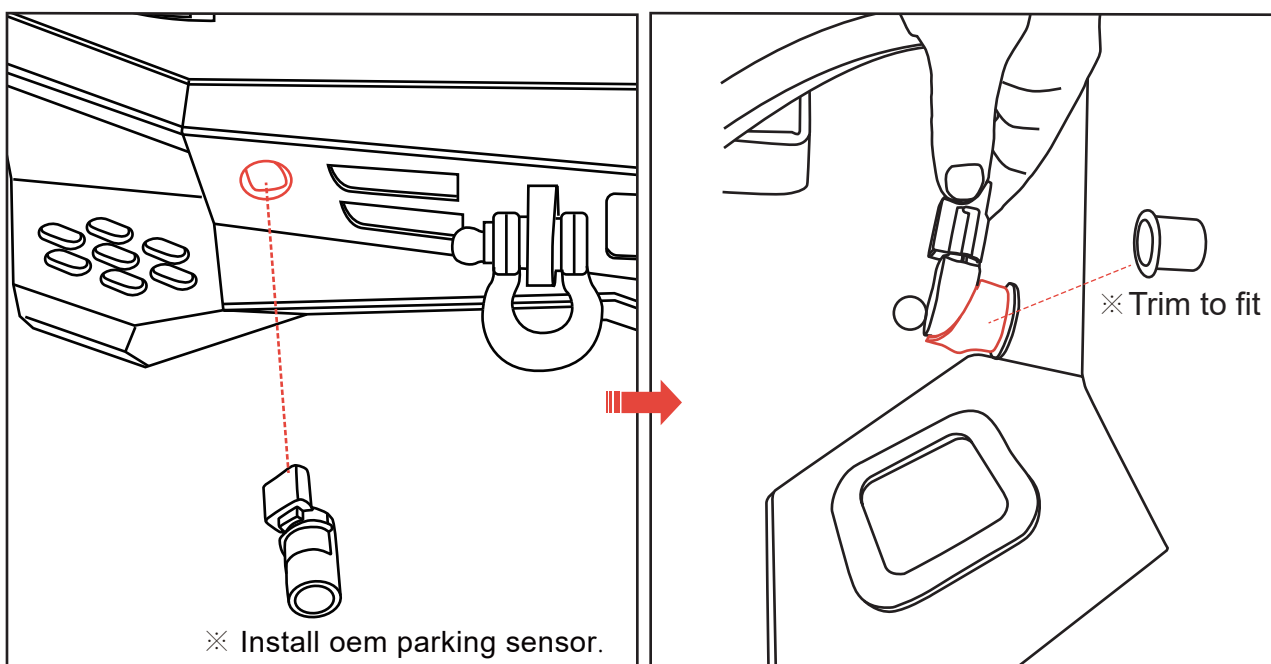

INSTALLTION II

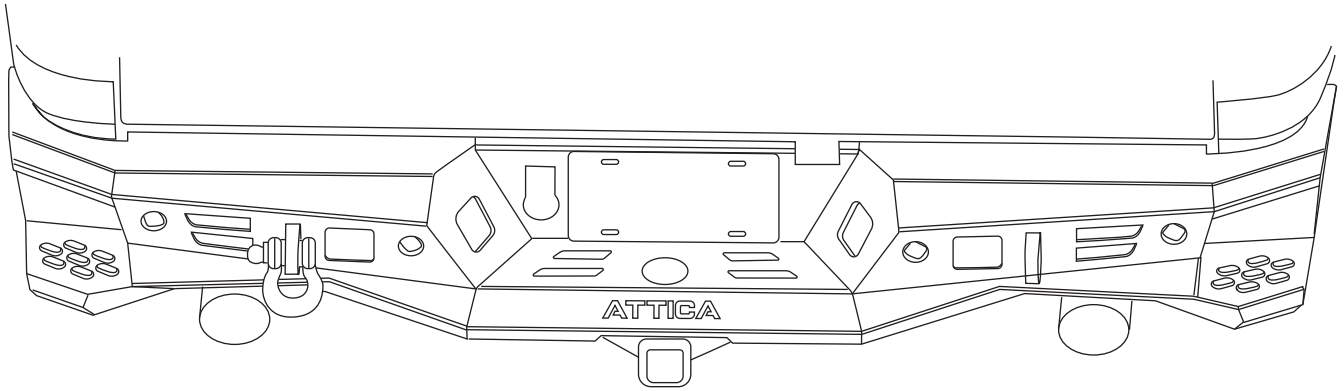

Bumper accessories installation.

1. Install the new license plate light into the license plate light mounting hole (do not use the factory license plate light).

2. Install the factory sensors and trailer connector onto the rear bumper. Please note that the rubber sleeve must be trimmed according to the shape of the sensor, and then fitted over the sensor.

FINAL STEP

EMBRACE THE ADVENTURE

Enjoy the look of your new vehicle! Be sure to review all mounting bolts and re-tighten if needed. Perform occasional checks to keep everything secure. If you have any questions, please email us at Tech@attica4x4.com.
